LD 2106

Dear Legislators,

None of our neighbors should stop going to work, schools, medical facilities, or places of worship because they live in fear of being grabbed by ICE agents at those places. None of our neighbors should live in fear because they speak with an accent or look non-anglo. Please support LD 2106 so that ALL of us can feel safer and not feel like Maine has turned into a police state.

Thank you,  
Kate Hodgson
