Offering testimony in support of LD 2106

I am in full support of requiring preventing ICE from conducting immigration enforcement without a valid judicial warrant in schools, hospitals and healthcare facilities, daycares, and libraries.

Having volunteered, developed friendships and cared deeply for people within the immigrant community. I am saddened and horrified by the level of indecency, coercion, and disrespect being shown to black and brown people nationwide. While I cannot make a difference nationally, I can do something in my State, my Community, and with/for my Friends who are at risk.

I urge the Judiciary committee to consider the ramifications and disastrous results of not limiting ICE's reach. This is not who we are as a people, a state, or a country. We have condemned and judged other countries for their disrespect of their citizens. Let us not continue to repeat the painful, dehumanizing history of our past.

Please do not reject LD 2106!

Sincerely, Rori Knott
