

Elise Robertson  
Peaks Island  
LD 2106

I am a childcare provider living on Peaks Island. We are lucky to live in a small community that has not been threatened by ICE, but I am absolutely disgusted knowing that ICE has been terrorizing our state, our country, and especially my community across the bay in Portland. Kidnapping children and parents alike, many of which have no criminal record and are simply existing as immigrants. There is nothing lawful about the way our administration is inflicting horror on the nation. It is animalistic. I encourage you all to do everything in your power as our elected officials to discourage and DEFUND ICE. We are watching, and we are waiting. We will not rest until all our neighbors are safe, and we won't allow you to either. We all deserve to exist. Do your job. Speak for your people.
