LD 2106

I'm testifying in favor of LD 2106. As a teacher, I see how much harm the current situation with ICE in Maine is causing to my students and the rest of my community. Schools should be a safe place where students can learn to be empowered members of society and lifelong learners, not be afraid to attend or unable to focus if they do attend because of fear for themselves or their families. We need to protect our students!
