Re: Bill LD 2106

Date of Public Hearing: January 29, 2026

I am writing in support of Bill LD2106. It is extremely important to me that our schools, hospitals, healthcare facilities, daycares and libraries are safe places for everyone who lives and works here in Maine.

Bill LD2106 will I believe help ensure the safety of everyone who attends, visits and/or works in these important community settings. These are not places where ICE should be conducting immigration enforcement without a valid judicial warrant.

If our people and our community spaces are safer then all of us will be healthier and as a result, our economy will also be healthier.

Please support Bill LD2106.

Thank you.
