LD 2106

Dear Judiciary Committee,

Please support “LD 2106 - An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review.” It is critical for the safety of all Mainers and our communities to hold ICE accountable to our state laws. This bill supports and protects the safety of our kids, the schools, daycares, hospitals and libraries that are suppose to be places of learning and connection not fear and aggression. We can do something to maintain safety and offer some legal protection by requiring a judicial warrant in these places. Please support this bill and protect the kids, families and providers who are in danger of being illegally detained, physically harmed and/or killed. We are all saw how ICE actions can become deadly and must do everything we can to prevent that from happening in Maine. This bill sets clear guidelines, provides at least some accountability and can work to restore some sense of safety and wellbeing for our kids, teachers, librarians, healthcare providers and those they serve.

Please consider the children, our future, and protect our communities by voting for this bill.
