LD 2106

I am writing to urge you to support LD 2106 to protect Maine citizens' rights by clarifying the legal duties & responsibilities of those working in critical public spaces when confronted by immigration officers, who in at least some parts of the country, are now practicing brutal, unlawful tactics. Maine must require a judicial warrant be presented to employees before they allow access to non-public records. Further, our Attorney General needs to provide guidance and policies to support Maine workers as they hold the line against a dangerous arm of the federal government. Let's get ahead of this and firm up our defenses now through the passage of LD 2106. Thank you for your time & your service.
