LD 2106

Dear Members of the Judiciary Committee,

I am writing to express my support for LD 2106. I am an educator in Maine and our children attended public schools here. I think we can all agree that in Maine, schools should be a safe place for our students, families and staff. LD 2106 will help ensure that our children will be safe in school as well as in all aspects of their daily life. Thank you for the opportunity to express my support for LD 2106.
