

Lio Jeanneret  
Scarborough  
LD 2106

Hello,

My name is Lio Jeanneret, I am a student of Scarborough High School, and I am writing in support of bill LD 2106, and the public hearing is Thursday, January 29th at 1:00 PM. I have seen the direct impact of ICE in my community of Scarborough, as well as in the high school. Kids who should have the opportunity to safely go to school or to the doctors, fear that they will be taken. This is especially disrupting to a child's right to education and safety as they are fearful of getting kidnapped, so they do not regularly attend school anymore. It should be a communities' first priority to make sure everyone feels safe and in the current environment no one does. I want the immigrant community of Scarborough to be safe and it would show a lack of empathy and compassion to deny this bill from going forward. This is not about politics, it is about basic human rights.

Thank you for your time.
