

Magdalena Goebel-Shupp  
Scarborough  
LD 2106

I, Magdalena Goebel-Shupp opposes the unwarranted deployment of ICE in our communities. These federal actions make terror in our communities, separate families, and break trust in our government. I know people who are scared to leave home, for fear of being deported, detained or hurt by ICE. People won't get groceries, leave the home or go to school because of these fears. What is happening is serious, and needs to stop. That's why you should support LD-2106, so that our friends who are immigrants can get Judicial Review, which everyone should be entitled to.
