LD 2106

To the Judiciary Committee,

I would like to express my support of LD 2106. As a Mainer, a registered nurse and American citizen I urge you to keep our libraries, schools, hospitals and daycares safe from the terror that ICE has been inflicting across this country. Our communities across the state deserve safety and sanctuary in these spaces, regardless of immigration status. As we have witnessed over the past few weeks the presence of ICE is a risk to public safety for all Americans. We cannot allow the unchecked authoritarian violence of the Trump administration to terrorize our community resources. Please do the right thing and protect the people of this state by passing LD 2106
