I've been teaching for fifteen years, and other than the COVID pandemic, I've never seen anything disrupt the lives of so many families and adversely affect the well-being of so many children than the current occupation of our community by ICE. No one in Maine asked for this, and we need our leaders to stand up for us and our neighbors. Please do whatever is within your power to limit the physical and emotional violence that these lawless psychopaths are inflicting. History will not look kindly on those who enabled this.
