

Stephanie Allen  
Northport  
LD 2106

LD 2106 protects Maine's children, parents, teachers, healthcare workers and all of us by denying U.S. Immigration and Customs Enforcement (ICE) access to schools, healthcare facilities, daycare facilities, and libraries without a judicial warrant.

I think this bill is essential to keep our Maine citizens protected from undue terror, lack of due process and can be general assist in security to show them that they are respected in our state and can live their lives a little safer while this regime is in power. Please protect our immigrant citizens and their rights. This bill not only protects our immigrants, it protects every Mainer.
