I am submitting testimony IN SUPPORT of LD 2106.

Public schools, childcare facilities, and libraries need to be places free of harassment and terror for everyone, including students, families, patrons and employees.

Allowing access to those without a judicial warrant or subpoena from a court of law is not in accordance with the conduct of a society that functions according to the rule of law.

Employees in schools and childcare facilities in particular provide an essential public service, and need to feel safe in their places of work.

Increasing anxiety and fear in schools, childcare facilities, and libraries is a destabilizing force in our society, and should not be allowed.
