

Laura Newman  
Portland  
LD 2106

I am writing to express strong support for LD 2106.

All children should feel - AND BE - safe in these public spaces. What the ICE agents have been doing, in addition to violating the law, is terrorizing and traumatizing communities and especially children.

Unless you've been living under a rock, you must be aware that the harms of trauma can seriously, if not permanently impact a child's mental health, education, and the ability to live well and function as a member of society over the course of their life.

You can support this bill because you feel it is the right thing to do from a humanitarian standpoint, or perhaps even just a financial and economic one; what ICE is doing right now will not help our country either way.

These reckless actions must be stopped and laws must be followed.  
Thank you!
