

Elayne Richard  
Fairfield  
LD 2106

Dear members of the Judiciary Committee, I am Elayne Richard and I am writing today, January 29, 2026 in support of LD 2106, An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review

The deployment of ICE in our communities in Maine and the actions and intimidations they are doing create fear in all of us.

ICE cannot be allowed to proceed into schools, hospitals and healthcare facilities, daycares, and libraries without a valid judicial warrant. They also cannot be allowed to obtain private records if they enter nonpublic areas in these spaces.

Every person living in Maine, regardless of immigration status, should be able to go to school, go to a doctor's appointment or the library without fear or threat of intimidation from ICE.

Please vote in support of LD 2106 to ensure that ICE ends their unconstitutional and immoral tactics here. Let Maine be an example of democracy to everyone. Thank you.
