LD 2106

I am a retired public school teacher, and making sure that all children feel safe in school has been one of my priorities for many years. I was proud to be the sponsor of the Civil Rights Team at my high school for several years, and I know what the laws of Maine are regarding children in the public schools.

It should not have to be said that causing trauma to children and people who are seeking health care is absolutely beyond the realm of civilized society.

Children who are going to school **MUST** be made to feel safe while they are there. In fact, **CHILDREN MUST BE MADE TO FEEL SAFE WHEREVER THEY GO!**

Anyone who is going to a library, a school, a church, a hospital or clinic must be protected by the full force of the law and all the due process rights to which we are **ALL** entitled.

In fact, we residents of the state of Maine must be protected by our own law enforcement agents to ensure that our due process rights are respected in all situations.

I know you will support LD 2106. I am so grateful that I know this. I am grateful that I live in a state that respects the rights of all of its residents.

Thank you very much for your service to the people of Maine.
