Testimony in favor of LD 2106

Francine Rudoff

Litchfield

Dear members of the Judiciary Committee,

I am writing today to voice strong support for LD 2106. The actions we have witnessed across our state over the past week are inhumane and appalling to any shred of decency we may have as citizens of Maine and the United States. I do not want to live in a place where people are scared to go to school or daycare, take care of their health, and attend religious services because of the color of their skin, the way they speak and/or if they are here legally as part of what was our formal immigration system.

LD 2106 will prevent ICE from conducting immigration enforcement without a valid judicial warrant in schools, hospitals and healthcare facilities, daycares, and libraries. LD 2106 also prevents ICE from obtaining private records in the event they enter nonpublic areas of these spaces. I think these measures are necessary for everyone's safety in Maine.

Please report this bill out of Committee as "Ought to Pass."

Thank you.
