LD 2106

Hello,

I am a resident of Maine and a financial industry professional. In both my personal and professional life, I hear from people in Maine communities every day, that they currently fear for their families' safety as they go about their daily lives. Many of these fears are voiced by professionals in healthcare and in higher education. Every single one of these people is either a US citizen or has entered the country legally and is following legal procedures and pathways to gain citizenship. Not one of them has a criminal record and yet, they fear that they or their family members will be victims of ICE's indiscriminate tactics of abducting people without any legal reason.

People need to be allowed to feel safe going to work, sending their kids to school and going to medical appointments.

Please support LD2106 and prohibit ICE from entering schools, daycares, libraries, and healthcare facilities without a valid judicial warrant.
