An Act to Prohibit the Disclosure of Nonpublic Records Without Proper Judicial Review

My name is Isabela Muldoon I'm a resident of Portland me and I support LD 2106. Given unprecedented ICE presence in Maine we need legislation that protects public spaces, everyone regardless of status deserves to feel safe. I work in Portland public schools and the anxiety and fear that I have seen in adults and children is all consuming. In the case of my youngest students I get the sense this unsafe feeling will stick with them, they deserve to feel safe at school. I strongly support this legislation. Please respond to this moment in Maine and rise to the occasion by passing LD 2106.
