

Eleonora de Vries  
Scarborough  
LD 2106

I, Eleonora de Vries, as a student and resident of Scarborough, Maine, firmly support the bill LD 2106. People in my community, including my fellow classmates, already feel so unsafe and scared because of the presence of ICE. We cannot allow ICE to create more fear and violence by giving them more unnecessary power, this time by violating our privacy. My community was far safer before ICE arrived, and at all costs we should prevent them from using more tools to cause harm. Privacy is an essential right that we all deserve to keep. Please support LD 2106 so that immigrants (who are vital to our community) can keep their basic rights and feel safe.
