RE: LD 2106: Testimony: Public Hearing

An Act to Prohibit the Disclosure of Nonpublic Records Without Proper
Judicial Review

DATE: January 29, 2026

I am writing IN Favor of LD 2106.

This bill is necessary to maintain the rights of every Maine citizen, and to ensure proper judicial review of all ICD operations in Maine, to prevent ICE from conducting immigration enforcement, without a valid legal warrant, throughout all public institutions in our State. Importantly, it also prevents ICE from obtaining private records if and when they enter nonpublic areas of these spaces.

Respectfully submitted,
