LD 2106

Hello, my name is Morgan Mazzei, your constituent from Bangor. I am writing to ask that you support LD2106 today. There is no reason for ICE to target people at school, their doctor's office, or the library. The people of Maine deserve to access healthcare and education free from terror. If a judicial warrant is present, then we understand the need to follow the law. What we have stood witness to for the last several weeks is not a legal process, but acts of terror and intimidation depriving humans of their rights. Please stand with me in this great state, against the unconstitutional behavior of bullies and authoritarians. Thank you.
