PLease Pass this bill 2160, An Act to Prohibit the Disclosure of Non-public Records without Judicial Review.

As a resident of a small community in Maine, I know that because of the current presence of ICE in Maine our citizens, school officials, healthcare workers, and childcare providers need immediate guidance about the legal requirements of compliance to demands for personal information by ICE. We need to know if the State of Maine will help them protect their students, patients, and children from harm. I personally stand against the national policy of mass deportation and hope that the Maine Legislature will stand up for the rights of all individuals in our state.
