LD 2106

Good afternoon. I am writing to urge Maine legislators to pass LD2106. All Mainers, regardless of citizenship or immigration status, have the legal right to due process. Unless someone poses an imminent threat based on credible evidence, and there is a judicial warrant for their arrest, ICE should not be allowed to enter schools, healthcare facilities, daycares, libraries, or private buildings. It is clear that ICE's methods are often illegal and unconstitutional, and aim to purposely terrorize communities. I hope that passing LD2106 will help make Mainers safe to go to school, seek medical care, go to work, and live their lives.
