

Kathryn Dewar
Kingfield
LD 2106

I'm testifying in favor of LD2106. I am a parent of 2 school age children, work part time at a preschool, and a midwife serving families in and around Kingfield, Maine. It would be an interruption to daily operations and a safety issue, not to mention very scary for young children, for ICE to conduct immigration enforcement at schools, daycares, hospitals, and other sacred public spaces such as libraries and places of worship. No Maine parent or child should fear attending school or going to a doctor's appointment. ICE should be required to get approval from a judge and a valid judicial warrant before conducting enforcement duties.
