

Mary D
Central Maine
LD 2106

Dear Members of the Judiciary Committee,

My name is Mary D. and live in central Maine. I am asking you to support LD 2106. As a public school teacher for 30+ years I can imagine the harm caused by armed, masked people coming into school. ICE should not be allowed into schools, libraries, hospitals, daycares without a judicial warrant. This bill addresses that. We are witnessing live what happens to communities when this is allowed. Portland schools tell of a large drop in student attendance and the fear of students seeing that their classmates are missing. Nurses at Maine General tell of staff not coming to work due to fear of ICE. People not showing up for important medical needs.

Please vote to protect Maine's children and families. Vote to pass LD 2106. Thank you
