FALMOUTH  
LD 2106

Please vote for 2106 to prevent ICE and CBP from accessing public spaces that were previously SAFE spaces for all people. Having young children placed at risk, or working people who are simply adding to the economy of Maine in a real, tangible way is not right and not sustainable. The ICE goons are sent to terrorize all of us, and we will not tolerate this. My daughter, who has a disability, is afraid to go to school for fear of encountering an ICE raid, Her fears are real, Over one third of my students are staying home for fear of being snatched. This is not the country my father and grandfather risked their lives for in WWII and WWI. STOP the FASCIST. Provide the people with safe spaces from this nightmare. We are not the USSR, we are the USA - start acting like it.
