

Kirstie Ludwig
Fayette
LD 2141

Greetings All. My name is Kirstie Ludwig and I live in Fayette, ME. I have been a long time board member of 30 Mile River Watershed Association representing Fayette. Our organization is dedicated to keeping our lakes, ponds and streams clean and healthy for generations to come. I feel blessed to live in Maine, a state that understands the importance of our natural resources and how fragile our lakes and ponds are as we battle climate change, invasives and damaging run-off.

Public enjoyment of our recreation areas is vital to our state and so is the responsibility to be good stewards of our waterbodies. In supporting LD2141, you would be providing long term, much needed funding to help sustain the important work of keeping our lakes clean and healthy. Please join me in my passion to continue this work by passing LD2141. Respectfully, Kirstie Ludwig
