

Chris Gillard  
Portland  
LD 1847

Please vote NO on LD1847. Maine's small business and the lively hood of many depend on it. This bill will hurt many folks who have poured their lives into this industry and it will make it too expensive to operate. The medical program has a tracking method that works well. The tracking with METRC is extremely wasteful, not only bad for the environment but also bad for business. Please vote no. Thanks!
