

Jamie Duncan  
Greenville Junction  
LD 1847

Please vote NO on LD1847. We have a very special craft industry with far-reaching positive ramifications. LD1847 would kill us and there would be far-reaching negative ramifications if this bill passes into law.

We already have tracking and testing in place. Why not have OCP try implementing that before we impose new testing?

Please vote NO and preserve our small craft industry.

Thank you for your time and consideration.
