LD 2106

To the members of the Judiciary Committee:

I thank you for the opportunity to submit written testimony after the public hearing. I am writing in support of LD 2106, which, as I understand it, would prohibit ICE and CBP agents from entering public spaces such as schools, childcare centers, libraries and hospitals. I believe these are spaces and institutions which are critical for the health, education and well being of all in the community. They should be safe spaces. If immigrants, refugees fear for their safety when they are in these spaces, they will stay away. They will lose essential services and opportunities, and their communities will lose as well. Those looking to detain and deport should not be permitted in these public spaces, for the good of all. I urge passage of LD 2106.

Thank you,
