LD 2176

I strongly support this bill because people in Maine, immigrant or not, are being detained by ICE without due process. All people deserve to be allowed the rights granted Americans under our constitution. ICE arrests and detains people without a warrant for such detainment. ICE uses racial profiling to choose who they arrest. These people are largely law abiding members of our community who are taken and they have no recourse to fair representation. This is a violation of our rule of law and our constitution. Therefore, the State of Maine must protect those ICE unlawfully detains and so LD2176 is needed. Please act favorably on this bill.
