

I ask you to vote to support Bill LD2070- An Act to Prohibit Landfill Expansion into Wetlands.

Our wetlands are an essential source of biodiversity, they support over 1/3 of all threatened and endangered species in the United States including amphibians, reptiles, birds, and mammals. We must do everything we can to protect them.

The Penobscot River watershed is a valuable natural resource that has made significant progress in recent years.

Let's continue that progress rather than reverse it.

Passing this bill would help protect the integrity of the Penobscot River watershed and all watersheds threatened by toxic landfills.

Thank you for your consideration,
Emma Donovan
Benton, ME
