

Sabrina Balabuszko  
Fairfield  
LD 785

I fully support and urge all determining members to also support LD 785, which would rightly interpret the 1980 agreement as a 'living document', and would open up opportunities for economic growth and poverty alleviation amongst the wabanaki communities, directly uplifting the children living there. If you do not support this bill, we as the state of Maine and its civically conscious citizens are actively preventing the same flourishing for the Wabanaki people. End this State Sanctioned gatekeeping of Wabanaki futures and usher in a time of growth that the other 570 federally recognized tribes have had an opportunity to experience and wield for their self governance!
