Hi, my name is Amanda and I wish to discuss free Maine College (Appropriations and Financial Affairs). I have 2 kids and although we hoped to be able to pay for them to go to college, we were unable to save enough money to do so. My oldest son is graduating from Community College this Spring and my youngest is supposed to start in the Fall. Hopefully they will both be able to experience free college so they can have easier access to good paying jobs. We want our children to have a better life than we did and this is a great opportunity for kids to be able to take college classes to prepare them for higher paying jobs. Investing in our youth is always a great decision. Thank you for taking the time to read.
