To the Maine State Judiciary Committee:

All my life I have been interested in learning about the indigenous inhabitants of this land. I have a master's degree in Native American Studies and am currently a member of the Wabanaki Ally Team at First Parish Unitarian Universalist Church in Portland. I am learning much about our Wabanaki neighbors and the issues that limit their lives in our state. I ask you to do everything you can to remedy those parts of the Maine Indian Claims Settlement Implementation Act that are causing them harm.

Thank you for your consideration.
