

Nan Lee
North Haven
LD 785

I would like to add my name to the many people who support Tribal Sovereignty for the Abenaki Nation. The poverty rates of children are terrible and would be significantly lessened if LD 785 passes.

1,600 Mainers testified in record numbers supporting tribal sovereignty legislation based on the consensus recommendations of a bipartisan legislative task force. Environmental organizations, social justice organizations, organized labor, and faith-based groups continue to voice strong support on behalf of tens of thousands of their members.
