I'm writing urging the passage of LD785. It's time to grant the Wabanaki the right and ability to self govern. The the 1980 Settlement Act was envisioned as a "living document" meant to be updated. The law itself allows Maine, the Passamaquoddy Tribe, and Penobscot Nation to amend it. Amending it would be beneficial economically to the Wabanaki as well as the nearby non-tribal population. After more than 40 years of harm, it's time to modernize this broken deal.
