I'm asking you to include \$15 million of ongoing investment into the Child Care Affordability Program.

This program has allowed our family to have a wonderful work life balance. It allows my husband and I to own a house in Portland and have meaningful jobs that contribute positively to our community. I work as a teacher, a job that I love, without worrying about needing a second job to afford childcare costs. During my summer break, I am able to spend time individually with each of my children, as well as spending time taking care of myself.
