

Marissa Bickford
Westbrook
LD 335

Hello Committee,

Thank you for taking the time to hear this very important issue. My name is Marissa Bickford and I am a constituent in Westbrook, ME.

I support LD 335 because we must support reproductive rights and supplement funding the Trump administration has hacked from vital organizations like Planned Parenthood.

I and many of my loved ones rely on our reproductive freedom. If I cannot control my reproductive health there would be irrevocable consequences to my long term and overall health. It may result in my death.

This bill will also support working mothers and the trans community, all of whom I love and who are vital to the work I do.

Please support all Mainers by supporting long term and overall health, sovereignty, dignity, and reproductive rights. Support LD 335.

Thank you for your time.

-Riss
