

Susan Parks
Augusta
LD 2175

We need teachers in every school district in Maine. I am a member of the Augusta School Board and know that at each and every Personnel Committee meeting, we hear a list of open positions in our district, most of them for teaching positions. We must make alternative pathways for people who want to teach to reach their goal. Our obligation to our students is to provide quality instruction in our schools. Please vote "Yes" on LD 2175.
