

Russell Brimmer
Levant
LD 335

I oppose any measure that supports the killing of unborn babies, which is any person past conception and prior to birth, whatever the circumstances of their conception. I am further opposed to having any of my taxpayer money used to commit these heinous acts against defenseless human beings. In addition, our money should not be used to replace other funding which may become unavailable to support or condone murder. I urge you to defeat LD 335.
