Senator Tepler, Representative Doudera and members of the Joint Standing
Committee on Environment & Natural Resources,

I write today to urge you to vote in favor of upgrading the water classification for the
Androscoggin River to a permanent Class B condition for the river section between
Worumbo and Gulf Island Pond dams. This upgrade will both help better protect
water quality within the river and honor much hard work done to heal the river from
the damage inflicted upon it in the past. Please do support the amendment making the
Class B designation permanent!

With many thanks for your support and hard work, Jan DeBlieu
