

John Crean
Jonesport
LD 335

To the Honorable Members of the Committee for Health and Human Services,

We do not support our tax dollars in the taking of human life. At the moment of conception we believe that this human being deserves the right to be born.

The fact that federal tax monies are/were used for abortion is abhorrent. We rejoiced knowing that federal funds had been withdrawn for abortions. The fact that the state is working to offset this via the pocketbook of Mainers is wrong. We (there is 3 adults in this household) strongly oppose this idea, and DO NOT support any laws in support of the LD335.
