2026-02-24 12:29:29 ET	Dean	Abby	34 Abby Road	Albany Township	ME	04217	Don't Let the Sun Set on MCPC!	I'm a 76 year old retiree living in Albany Township, Maine. I live on a fixed income! My energy costs are outpacing my resources. Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. I urge you to take action today, to make sure solar ownership in Maine is not just for the wealthy!
2026-02-09 20:09:12 ET	pixie	lauer	170 dock rd	alna	ME	04535	Don't Let the Sun Set on MCPC!	Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. I urge you to take action today, to make sure solar ownership in Maine is not just for the wealthy!
2026-02-24 16:23:33 ET	pixie	lauer	170 dock rd	alna	ME	04535	Don't Let the Sun Set on MCPC!	Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. I urge you to take action today, to make sure solar ownership in Maine is not just for the wealthy!
2026-02-10 09:56:46 ET	Peter	Conant	2648 Sennebec Road	Appleton	ME	04862	Don't Let the Sun Set on MCPC!	Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. We at our house are lucky enough to have installed our own solar array, and it is the best thing we could do to save our planet. We create nearly all of the electricity we use, and use only the barest minimum of fossil fuel. This saves us money as well as reducing our greenhouse gas emissions. Everyone should be able to do this, for themselves and for all of us! MCPC needs to continue their work to help EVERYONE be able to have their own solar array. I urge you to take action today, to make sure solar ownership in Maine is not just for the wealthy!
2026-02-09 17:52:22 ET	Kathryn	Beveridge	146 Spinney mill rd	Arrowsic	ME	04530	Please support the Maine Community Power Cooperative	The Maine Community Power Cooperative is doing things differently. 2026-02-09 17:52:53 ET	Geratdine	Gross	41 Glencove Avenue	Bangor	ME	04401	Don't Let the Sun Set on MCPC!	Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. On a personal note, I installed solar panels on my roof 6 years ago and have been benefited from lower energy costs ever since. I'm fortunate enough to have some extra money, a roof that worked, and help from Solar Bangor. Please be sure that more people can benefit from solar energy going forward. I urge you to take action today, to make sure solar ownership in Maine is not just for the wealthy!

2026-02-17 13:39:43	60 ET Sorrel	Dunn	1 Cedar st, Apt 8	Brunswick	ME	04011	Don't Let the Sun Set on MCPC!	Hello, I am writing to urge to you please support LD 1966 and the Maine Community Power Cooperative. This co-op is very dear to my heart and is a unique opportunity and resource for Mainers: unlike other solar providers, MCPC creates value for those who can't afford solar of their own. And, by operating with small solar installations (just a couple acres) close to transformer stations all across the state, MCPC supports grid resilience by lessening the amount of electricity that needs to travel great distances. It is truly by and for Mainers, and keeps our power local, and at an income-varied price point so that the most vulnerable people can afford electricity. I urge you to take action today, to support the health of our electrical grid without the need for expensive build-outs, and to make sure solar ownership in Maine is not just for the wealthy!â€ Thank you very sincerely for your attention!

2026-02-25 06:47:04 78	ET Eliza	Jacobs	9 Everett St Brunswick	ME 04011		Please pass LD1966-- Don't Let the Sun Set on MCPC!	Please support LD1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own. As a member of MCPC I have seen the direct and positive impact on my energy bills. Not passing LD1966 will allow MCPC to continue operating and keep my electricity bill lower. MCPC is new and growing. The benefits I'm receiving as a subscriber-owner can be realized by more like me across the state if you are willing to support their continued operation by passing LD1966. Unlike larger community solar companies, MCPC is owned and operated by Mainers who have the best interest of our state in mind. This passionate group of people are working tirelessly to ensure that MCPC can continue to help reduce the energy burden for Mainers. Please pass LD1966 to help low to moderate income Mainers realize the financial savings that wealthier Mainers across the state have already received through their rooftop and ground mount residential solar.

88	2026-02-09 16:37:26 ET	Tom	Mikulka	6 arrow point road cape elizabeth	ME 04107			Please support the Maine Community Power Cooperative	Please support MCPC and make sure solar ownership is not just for the wealthy!â€ As natural gas prices continue to rise and result in increased rates for middle to low income families, community solar is one obvious solution.
									I am a Cape Elizabeth resident who benefits from lower energy costs through participation in a community solar program. Without it, I would not have access to solar power. Installing panels on my own home is financially out of reach â€and due to the direction my house faces, it would not be practical even if I could afford it. Community solar makes renewable energy accessible to people like me. It ensures that clean energy and lower electricity costs arenâ€™t limited to those who can afford rooftop installation. I urge you to support LD 1966 and the Maine Community Power Cooperative (MCPC). Unlike many solar providers, MCPC is structured to create shared value â€ prioritizing affordability, community ownership, and long-term benefits for everyday Mainers. Please take action to ensure that solar ownership and the benefits of clean energy in Maine are not reserved only for the wealthy.

									The Maine Community Power Cooperative is doing things differently. They are focused on providing the greatest benefit possible to local communities across Maine. That is why I have volunteered as a member of the Board of Directors. Unlike other "community solar" providers, they create real savings and value for those who can't afford solar of their own.
	2026-02-24								My wife and I would like to host a solar farm on our property in Morrill. We have 5 acres of land that is mostly open field, along route 3. Other solar installers have told us that it is 'too small' to fit their business models. We have planted dozens of fruit and nut trees, and hosting a solar farm with MCPC will allow us to help provide clean energy for our community, while stewarding the land for future generations.
156	ET	David	Gibson	8 Thomas Road	Morrill	ME	04952	Please support the Maine Community Power Cooperative	Please support MCPC and make sure solar ownership is not just for the wealthy!â€

									Dear EUT Committee Chair Mark Lawrence, Chair Melanie Sachs, and members, L.D.1966, An Act to Improve Access to Community Solar Programs in the State, is before you, having been carried over. If this bill is amended, I am in favor of it. Supporting community-minded utilities is important, especially in our greatly rural state. Part of last Sunday's super bowl half-time show made that very point. Maybe you saw Bad Bunny climb the electric pole, singing â€œThe Blackout.â€
									Our Maine PA in her 10/30/25 testimony before the EUT Committee does not support this bill. At the January 15th work session PA Heather Sanborn spoke about the changes she would like to see to the bill. She encouraged you to move forward with all that she spoke of in mind. Please amend this bill, L.D. 1966, and pass it.
	2026-02-10								Thank you.
164	ET	Celeste	Carey	58 Spruce Rd	Newcastle	ME	04553	No to the Blackout on MCPC!	Celeste Carey Newcastle, Maine

2026-02-24 10:05:50 235	ET Adam	White	106 Martin Road Rumford	ME 04276	Support the Maine Community Power Cooperative			I am writing in support of LD1966 and urge the Energy, Utilities, and Technology Committee to vote YES. I am a supporter of the Maine Community Power Cooperative, a small-scale, consumer-owned solar cooperative that is making clean energy accessible and affordable for Maine households. A legislative oversight in LD1777 has inadvertently prevented MCPC from continuing to develop new projects and serve its growing membership “ LD1966 corrects that. This is a commonsense fix for a cooperative that is doing exactly what Maine's energy policy should encourage: local ownership, equitable access, and clean renewable power. I urge the Committee and my legislators to support MCPC and vote YES on LD1966 as amended.

2026-02-09 17:19:49 253	ET Kerry	Read	64 Western Ave South paris	ME 04281				<p>I am a low income, retired member of The Maine Community Power Cooperative. I joined because I will receive a 20% discount on my entire electricity bill, including distribution charges and I don't have to pay 2 separate bills. I dropped my subscription to a large solar farm because I want my money to stay in Maine, providing jobs and building resilience in our energy distribution infrastructure. I joined because MCPC only builds small installations (less than an acre) and they require that the land is used for multiple purposes, providing for grazing, bee keeping, fruit production and other agricultural uses. I joined because I have a voice in electing board members and any questions or concerns that I have are answered promptly by employees that live and work in our communities. I joined because I want to power my home with Maine-grown solar energy.</p> <p>Please vote for LD 1966 and support Maine Community Power Cooperative</p> <p>Please support MCPC and make sure solar ownership is not just for the wealthy!&#x2013; please support LD 1966 and the Maine Community Power Cooperative as a member/owner. Unlike other solar farm providers, MCPC creates value for those who can't afford solar of their own.</p> <p>Nothing is better than clean, sustainable, safe and eco-friendly approach to energy. Solar is the least expensive form energy today. Here are my reasons you should support LD 1966.</p> <ol style="list-style-type: none"> 1. To improve resiliency at the ends of our grid in Maine. 2. Delay (and possibly eliminate) the infrastructure build up costs needed by centralized traditional power plants (that pollute) versus developing 'last mile' opportunities lowering the transmission need and potentially reducing brownouts and blackouts. 3. To offer a better and simpler billing approach by having just one bill (versus two bills that are near impossible to make sense of, I know because I have seen a real life example and I can tell you I cannot spend the time to match all the variables in the 'two-bill' systems of subscriber-only farms. 4. As Maine has no fossil fuels (which is costly to develop, polluting, and costly due to the byproducts of extreme weather events, for example, rising insurance costs, drought and flood events, warming oceans affecting our fishing industry to name just a few, along with increased healthcare costs for everyone, and killing our planet's habitability. We have an opportunity to support a nonprofit that captures energy from the Sun's life giving radiance. 5. MCPC's systems are fiscally conservative by being less costly to install and more quickly implemented. 6. Plus the added benefits of improving the economy in Maine, increasing employment opportunities and keeping funds in Maine instead of exporting them elsewhere out of state like Spain and Canada. 7. MCPC has, in its mission as a nonprofit, for dual use installations that promote and ensure agricultural use of the land simultaneously, along with dual tracking technology to gather approximately 40% more energy compared to fixed position solar installations. <p>I urge you to take action today, by voting Yes on LD 1966 to make sure solar ownership in Maine is not just for the wealthy! Please vote yes to support all the hard work MCPC has done to date to make smart use of existing technology and infrastructure.</p>
2026-02-09 18:41:22 254	ET Jonathan	Wilcox	735 Hebron Road South Paris	ME 04281				<p>There are so many positive reasons to vote Yes on LD 1966</p> <p>Jonathan Wilcox The Maine Community Power Cooperative is doing things differently. Unlike other solar providers, they create real savings and value for those who can't afford solar of their own.</p> <p>Please support LD 1966 and the Maine Community Power Cooperative. Unlike other solar providers, MCPC creates value for those who can't afford solar of their own.</p> <p>I can tell you, from looking at the dual billing system of other solar farm's dual bill system--the non-cooperative type solar farm--verifying the accuracy and just plain understanding a dual bill system is a waste of precious time because of the barrier of complexity in their programming, the utility company (CMP) has in their practice. The single bill method that MCPC has is a better way because of transparency and ease for older, lower income participants, such as myself to understand and verify. CMP is profit driven.</p> <p>Do you remember the ice storm of 1998? (CMP is near the bottom, if not last place in customer service. Including being penalized by Maine's PUC to the tune of \$10Million. Solar capture is the lowest cost form of energy in existence. Solar is the most sustainable and least polluting. MCPC in its mission statement makes dual use land a priority to allow for farming to continue. The evidence is clear, no matter how one compares, supporting LD 1966, is a win-win for all consumers of electricity, when one includes all components that impact Maine and its citizens are included in the equation, including pollution, healthcare costs, insurance costs, resiliency and future impacts to us all.</p> <p>References here: "Central Maine Power (CMP) has been consistently ranked as having the worst or near-worst customer satisfaction among U.S. electric utilities, primarily published by market research firm J.D. Power. These rankings, based on surveys of business and residential customers, have consistently placed CMP at the bottom nationwide for several consecutive years, specifically from 2018 through 2022. The Maine Beacon, WGME, MPBN and others. https://mainebeacon.com/cmp-ranked-last-once-again-in-j-d-power-business-customer-satisfaction-survey/</p> <p>Key findings and entities: Entity: J.D. Power in their annual electric utility customer satisfaction studies.</p> <p>Timing: Consistently ranked at or near the bottom from 2018&#x2013;2022.</p> <p>Specific Rankings: 2022: Ranked last in business customer satisfaction with 597 out of 1,000 points. 2021: Ranked last among 145 utilities for residential customer satisfaction.</p>

								I am writing in support of LD 1966 and the Maine Community Power Cooperative (MCPC). MCPC is a Maine-based, member-owned energy cooperative developing small, community solar projects that prioritize low- and moderate-income ratepayers, local control, and responsible land use. MCPCâ€™s model is fundamentally different from large, profit-driven solar development. It delivers actual savings to the ratepayer, strengthens grid resiliency, and keeps decision-making in the hands of Maine people through their cooperative business structure. The passage of LD 1777 unintentionally put all their work at risk. Now LD 1966 offers a practical, time-limited solution that protects ratepayers while allowing truly community-owned projects like MCPC to move forward, but at a lower compensation rate than before. I urge the Committee to vote in support of the amended LD 1966 and the Maine Community Power Cooperative.

2026-02-09 16:29:32 266	ET Richard	Ainsworth	428 Knights Hill Road	Sweden	ME 04040		Please support the Maine Community Power Cooperative	Please, we really need this to work for the benefit of so many Mainers. I am a low income member of MCPC and the 20% discount I will receive on my utility bill (rather than the profits leaving the state in other "community solar" projects) not only helps my family but has the potential to help LMI families across Maine who are really feeling the pressure of increasing utility costs. This is the way community solar should have been done from the beginning and we cannot let it stop now we are just getting started! Please support cooperatively owned community solar and keep energy dollars in Maine! Thank you

2026-02-09 16:42:46	298 ET Brianna	Cunliffe	5 S Garand St Apt 3	Winslow	ME	04901	Support LD 1966 for Renters & Middle-Income Mainers Like Me: Don't Let the Sun Set on MCPC!	Dear members of the Commission: For renters like me, and low and middle income Maine families who, for so many reasons, can't simply build their own solar arrays, Maine Community Power Cooperative provides a way to benefit from clean energy. Without a regulatory framework that allows this good work to operate profitably, most Mainers risk being left behind, with the benefits of solar ownership only accruing to the wealthy. That doesn't serve our state, and it's counterproductive to the admirable goals of reining in big businesses profiting off our collective resources- it's pivotally important that we take this step to establish a path forward for cooperative approaches to renewable energy that build local prosperity, encourage responsible, transparent siting, and make our communities stronger together. Please support LD 1966, so that the Maine Community Power Cooperative and the others that will follow in their footsteps can build an energy future that serves us all. Thank you for your time and consideration, Brianna Cunliffe
