

Nick Pagon  
Westport Island  
LD 2226

LD 2226 is critical for the educational well-being of lower income children throughout the State of Maine. It corrects what we all know is an extremely inequitable prevailing funding provision. In a time when income disparities are rising fast and inflation steadily eroding the subsistence of low-income families, a fair education is of greater moment than ever. We all will lose if this is not valued.
