

Elizabeth Lee
Westport Island
LD 2226

I am writing to support the passage of LD 2226. I have lived on Westport Island in RSU 12 for about 20 years. I have seen the property values here skyrocket recently, yet the income levels have seen little change. Westport Island is a very small, rural working-class town. The current EPS Funding Formula based on property values is weighted heavily against rural working class communities like Westport Island and the other towns in RSU 12. LD 2226 will correct that imbalance.
