

TREVOR HARRIS
Westport Island
LD 2226

My name is Trevor Harris and I am a new full time resident of Westport Island. I served in education for all my adult years and appreciate that there is no easy solution to representations funding and more importantly making sure that those who need educational resources most are the ones at the front of the line to get them. I support LD 2226 as it is a way to better represent the actual needs of students and families in our schools.
