

March 18, 2026

Dear Maine lawmakers,

Land for Maine's Future (LMF) is the state's most successful and popular land conservation program. Across all 16 counties, LMF projects have expanded access for a wide range of recreational opportunities including hunting, fishing, ATV riding, snowmobiling, hiking, biking, and cross-country skiing. They have protected our heritage industries by preserving farms and working forests, and ensuring access to working waterfronts along the coast. At a time when climate change and development pressures are taking a toll on Maine, we need LMF more than ever, but it's running out of money. Now is the time to invest in working lands, our recreational economy, climate resilience, and the beauty and open space that define our state. **We urge you to move quickly to provide adequate funding for LMF.**
